Our Mission and Vision

Mission

To prepare, equip and empower persons to address life management issues, and to improve the quality of life in their communities.

Vision

To ensure anyone in Western New York who needs help and has no place to turn, who has trouble accessing services, or who has slipped through the cracks of the human social services system, has a trusted place to go for help in taking the next step toward maximum independence.

Services for Children & Youth

The focus of our programs

We have been serving Buffalo and Erie County since 1893, providing quality, choice, accountability and the opportunity for recovery and empowerment to our clients through a diverse selection of programming.

Our programs are available to anyone in need, regardless of ability to pay.

Comprehensive Adolescent Pregnancy Prevention

Comprehensive Adolescent Pregnancy Prevention (CAPP) provides a variety of services in school- and community-based settings in the City of Buffalo for youth ages 10 to 21.

Programming includes:

- Small group, evidence-based curricula designed to teach young people about the risks of HIV/AIDS, sexually transmitted infections and teen pregnancy;
- referrals and help with access to health care;
- “Boys to Men” program introducing young men to multiple perspectives on manhood;
- workshops on healthy relationships and healthy life skills;
- “Rites of Passage,” a mentoring group for males and females;
- summer youth employment;
- service learning projects;
- educational/recreational events;
- and academic support provided through our subcontractors, the Fun & Learn Program and the Bob Lanier Center.

All services are offered free of charge.

Residential Services

The individuals in our Residential Services programs are challenged by mental illness, but with the support of this program they function at their optimal level as full and contributing members of the community. Depending on their level of independence, individuals (ages 18 and over) live in licensed group homes, supportive apartments or apartments in the city.

Services include assistance with daily living skills, medication management, crisis/emergency intervention, money management and leisure time management.

Care Management

Care Management services are provided to adults 18 and over who have a mental illness or significant medical problems. A Care Management Plan is developed with each consumer. Linkages to other services and supports are provided based on each consumer’s needs. The overall goals of Care Management are to prevent unnecessary hospitalizations, connect persons to needed/desired services, and to promote successful living in the community.

Services are provided from:
